**BIO:** Sarah has a background in Art History and trained as an apprentice in classical textile design hand painting techniques. She is inspired by the bounty of nature, ornament, color, travel, textiles, and folk patterns. Sarah likes to work in a painterly, hand-done style, finding beauty in the imperfect and unique.

She works from her home studio with her darling assistant, her two year old daughter Violet. Her designs have been used by companies such as Tesco, Hallmark, and Greetabl.

Sarah loves creating beautiful designs to bring a bit of happiness to someone's life.
